WHAT IS LINUX?

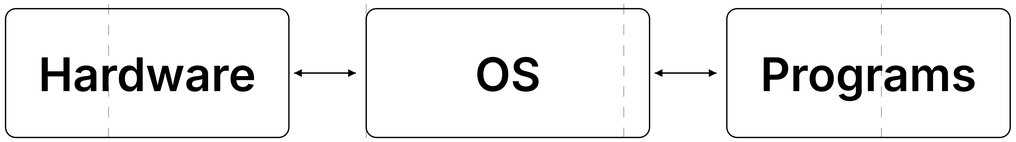

An operating system, like Windows or macOS.

Tux

silueta simple del pingüino (opcional)

OPERATING SYSTEM

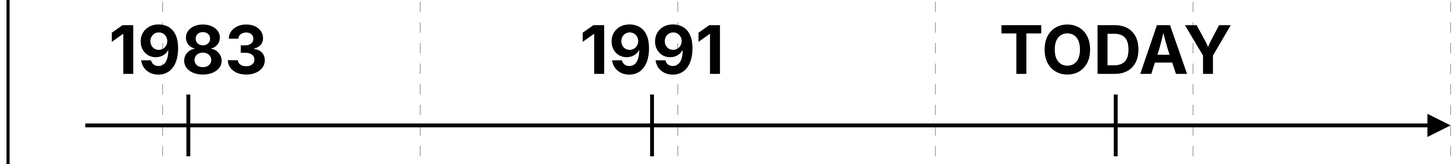

The program that controls the computer. It connects the hardware with your programs.

THE KERNEL

The heart of Linux. It talks directly to the hardware: the processor, the memory and the disk. Kernel + tools = a complete operating system.

HISTORY

GNU project
Richard Stallman

Linus Torvalds,
student in Finland

"Just a hobby, it won't be big."

thousands of
developers

FREE & OPEN

Free: $0 + freedom to use, study, change and share.
Open source: the code is public.

Pliego 1/3 · 100 × 70 cm horizontal · cuadrícula = 10 cm · alto de letra: título ≈ 5,8 cm, encabezados ≈ 2,2 cm, texto ≈ 1,6 cm

DISTROS & HOW IT WORKS

Same kernel, many flavours. And Linux works in layers.

LINUX KERNEL

DEBIAN
family

Debian
Ubuntu
Linux Mint

for beginners

RED HAT
family

Fedora
Red Hat (RHEL)

for companies

ARCH
family

Arch Linux
Manjaro
CachyOS

fast & up to date

SPECIAL DISTROS

Kali Linux → security · SteamOS → games
Like ice cream: same base, many flavours!

HOW IT WORKS

APPLICATIONS browser · games

SHELL & SYSTEM commands

KERNEL the heart

HARDWARE CPU · memory · disk

flechas: el clic baja, la respuesta sube

TERMINAL: 5 COMMANDS

`ls`	→ show the files
`cd`	→ change folder
`pwd`	→ where am I?
`mkdir`	→ new folder
`sudo`	→ admin (careful!)

Pliego 2/3 · 100 × 70 cm horizontal · cuadrícula = 10 cm · alto de letra: título ≈ 4,5 cm, encabezados ≈ 2,2 cm, texto ≈ 1,6 cm

LINUX IS EVERYWHERE

You use it every day, maybe without knowing it!

SERVERS

Most of the internet: Google, Netflix

ANDROID

Billions of phones

SUPERCOMPUTERS

500 of the top 500

TVs & CARS

Smart TVs, cars, routers

MARS

NASA Ingenuity helicopter

GAMES

Steam Deck (SteamOS)

opcional: un icono muy simple en cada caja

WHY USE LINUX?

1. It's free
2. It's secure
3. It's customizable
4. Old PCs live again
5. Big, friendly community

WHAT LINUX ARE YOU?
