WHAT IS LINUX?

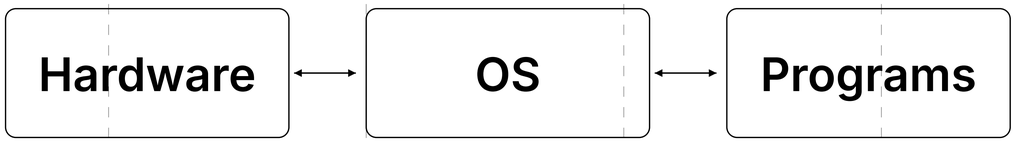

An operating system, like Windows or macOS.

Tux

silueta simple del pingüino (opcional)

OPERATING SYSTEM

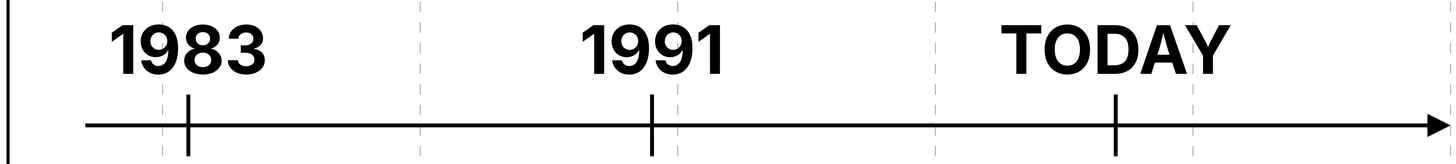

The program that controls the computer. It connects the hardware with your programs.

THE KERNEL

The heart of Linux. It talks directly to the hardware: the processor, the memory and the disk. Kernel + tools = a complete operating system.

HISTORY

GNU project
Richard Stallman

Linus Torvalds,
student in Finland

"Just a hobby, it won't be big."

thousands of
developers

FREE & OPEN

Free: $0 + freedom to use, study, change and share.
Open source: the code is public.

Pliego 1/4 · 100 × 70 cm horizontal · cuadrícula = 10 cm · alto de letra: título ≈ 5,8 cm, encabezados ≈ 2,2 cm, texto ≈ 1,6 cm

DISTROS

Distro = Linux kernel + programs + design + tools.

LINUX KERNEL

DEBIAN FAMILY

Debian

Ubuntu

Linux Mint

stable · great for beginners

RED HAT FAMILY

Fedora

Red Hat Enterprise

modern · used by companies

ARCH FAMILY

Arch Linux

Manjaro

CachyOS

fast · always up to date

SPECIAL DISTROS

Kali Linux → security · SteamOS → video games

LIKE ICE CREAM

Same base, many flavours. There are hundreds of distros!

Pliego 2/4 · 100 × 70 cm horizontal · cuadrícula = 10 cm · alto de letra: título ≈ 5,8 cm, encabezados ≈ 2,2 cm, texto ≈ 1,6 cm

HOW DOES IT WORK?

Linux is like a cake: it has layers.

APPLICATIONS

browser · music · games

SHELL & SYSTEM

commands · services

KERNEL

the heart

HARDWARE

CPU · memory · disk · screen

DESKTOP vs TERMINAL

Windows, icons and a mouse. GNOME · KDE Plasma

Write commands. Fast and powerful!

5 BASIC COMMANDS

`ls`	→ show the files
`cd`	→ change folder
`pwd`	→ where am I?
`mkdir`	→ new folder
`sudo`	→ admin power (careful!)

flechas: el clic baja, la respuesta sube

Pliego 3/4 · 100 × 70 cm horizontal · cuadrícula = 10 cm · alto de letra: título ≈ 5,8 cm, encabezados ≈ 2,2 cm, texto ≈ 1,6 cm

LINUX IS EVERYWHERE

You use it every day, maybe without knowing it!

SERVERS

Most of the internet: Google, Netflix

ANDROID

Billions of phones

SUPERCOMPUTERS

500 of the top 500

TVs & CARS

Smart TVs, cars, routers

MARS

NASA Ingenuity helicopter

GAMES

Steam Deck (SteamOS)

opcional: un icono muy simple en cada caja

WHY USE LINUX?

1. It's free
2. It's secure
3. It's customizable
4. Old PCs live again
5. Big, friendly community

WHAT LINUX ARE YOU?
